

**Memorandum
Public Works Department**

To: City Manager
Subject: Traveling Screen Carrier Chain Purchase
Date: October 18, 2016
Number: 2106-205

The Water Treatment Plant has budgeted to purchase two carrier chains for the raw water pump station traveling screen for calendar year 2017. The traveling screen is a critical component to the overall water treatment process as it is utilized to remove debris from the water before entering the raw water transfer pumps. These chains are specifically designed to fit our current traveling screen and can only be purchased from Screening Systems International. We are scheduled to install these chains in February 2017 ahead of the spring thaw and potential elevated river levels. Because it is a special order item, the lead time for these chains is approximately three months. Attached is the quote from Screening Systems International.

Recommendation

The Public Works Department requests City Council authorize the early purchase of two carrier chains from Screening Systems International, Slaughter, Louisiana, in the amount of \$12,496.00.

Vendor: Screening Systems International
Payment Amount: \$12,496.00
Account Chargeable:
 Fund: 501
 Division: 618
 Cost Center: 352
 Object Code: 52305
