Affordable Housing	Affordable Housing	Affordable Housing	Affordable Housing	Affordable Housing	The former Zayers location is a great place for affordable housing. Let's be realistic that it will never be an idea place for retail again. Although it would be great if a grocery store would open down that side of the hill and with affordable housing maybe that might happen.	Property Owner in Rock Island, Live in Rock Island	Ward 3	White	Female	45-54
Affordable Housing	Mental Health resources and services	Infrastructure (Water & Sewer)	Assistance to nonprofit organizations	Jobs / Workforce training & development	Mixed use urban development https://youtu.be/bnKIVX968PQ Green projects like solar infrastructure for city buildings or electric fleet vehicles that will reduce city expenses in the future.	Property Owner in Rock Island, Live in Rock Island	Ward 4	White	Male	25-34

Affordable Housing	Assistance to nonprofit organizations	Greenspace/Recreational Facilities/Neighborhoods	Assistance to small businesses (Attract/Retain)	Jobs / Workforce training & development	Rock Island's housing stock is older, run down and does not meet the needs of those with disability or the ability to attract new residents. When a city has poor housing stock, it's hard to attract a new businesses to help with tax revenue as their workers that may follow do not have a place to live or a place to live. ARPA can specifically fund affordable housing development and permanent support housing for those who are living unsheltered. Rock island is trying to revive the District and as a life long Rock Islander and a former 4 year resident of the district, you are not going to be able to do that when the downtown has quite a few people living unsheltered and causing issues. Housing is the only way to address this issue and to bring in more workforce development. Non-profits also need financial support since Rock Island gives all of its CDBG yearly to the Martin Luther King Center. There is no city assistance for other non-profits who play just as much of a vital role to citizens of Rock Island. I know left over CARES CDBG funding went to Project Now, but others should have been given the opportunity to apply for this funding versus sending it to one agency.	Property Owner in Rock Island, Live in Rock Island	Ward 7	White and Hispanic	Female	35-44
Affordable Housing	Assistance to small businesses (Attract/Retain)	Mental Health resources and services	Assistance to nonprofit organizations	Childcare, daycare, and early learning facilities		Live in Rock Island, Work in Rock Island	Ward 6	White	Female	18-24

Affordable Housing	Assistance to small businesses (Attract/Retain)	Aid impacted industries (Travel/Tourism/Hospitality)	Greenspace/Recreational Facilities/Neighborhoods	Jobs / Workforce training & development	Keeping & Restoring old landmarks like the Hauberg Civic Center	Lived in Rock Island for 20 years in Ward 1 and 5.	N/A	White	Female	55-64
Affordable Housing	Jobs / Workforce training & development	Greenspace/Recreational Facilities/Neighborhoods	Infrastructure (Water & Sewer)	Internet Access/Broadband	The Fitness Center really needs upgrades. It's not my highest priority, but the diving board has some safety issues, I understand. However, my main concern about RIFAC is that poorer parts of the city seem to be underrepresented in the citizens using this facility. Is there a way to increase their participation? Maybe have free bus service? Get kids there from the jr and sr high school to build healthy habits? In the same vein, there needs to be a grocery store in the poorer part of town so people can access fresh produce more easily. Health and fitness are basic needs, and until those needs are met, it will be hard to fully meet the needs of this under served part of our community.	Property Owner in Rock Island, Live in Rock Island	Ward 7	White	Female	65 and over
Affordable Housing	Mental Health resources and services	Market Rate Housing	Jobs / Workforce training & development	Internet Access/Broadband		Live in Rock Island	N/A	African American	Female	45-54
Affordable Housing	Assistance to small businesses (Attract/Retain)	Assistance to nonprofit organizations	Infrastructure (Water & Sewer)	Mental Health resources and services	Partnering with Community Home Parters to create a mixed income housing, retail space, and business community in the 11th St lot. Rerouting traffic so as to not separate Rock Islands riverfront from the rest of downtown. Open up the plaza in the District to encourage business growth (beyond bars).	Live in Rock Island, Work in Rock Island	Ward 7	White	Male	35-44
Affordable Housing	Infrastructure (Water & Sewer)	Childcare, daycare, and early learning facilities	Assistance to nonprofit organizations	Greenspace/Recreational Facilities/Neighborhoods		Property Owner in Rock Island, Live in Rock Island, Work in Rock Island	Ward 4	White	Female	55-64

Affordable Housing	Market Rate Housing	Jobs / Workforce training & development	Infrastructure (Water & Sewer)	Assistance to small businesses (Attract/Retain)	Dedicate a portion of the funds to a home owner repair fund. One in which people could apply for a grant, let's say with a \$5,000.00 cap, to purchase a new roof, replace windows/gutters etc. Many homes in RI are in need of repairs and the current home repair loan fund is insufficient and the wait list is long. Providing grant money to home owners would improve the quality of existing housing stock and would provide income to local home improvement companies and trade workers.	Property Owner in Rock Island	Ward 5	Why does my race matter in this survey?	Male	65 and over
Affordable Housing	Market Rate Housing	Mental Health resources and services	Jobs / Workforce training & development	Internet Access/Broadband	I want to start a community center	Live in Rock Island, Work in Rock Island	Ward 1	African American	Female	45-54

Affordable Housing	Mental Health resources and services	Assistance to nonprofit organizations	Assistance to small businesses (Attract/Retain)	Internet Access/Broadband	Truly affordable housing developments and a focus on drastically expanding on mental health care services that are available at low or no cost to those that need it most and without the stigmas. We are also in a housing crisis that needs to be addressed ASAP. Half of Rock Island looks like a war zone. Clean it up, develop it (without excess gentrification) and help end the cycle of poverty by developing ample housing units that are actually affordable based on average incomes in the community and neighborhood. Affordable means I can pay my rent or mortgage AND afford to pay utilities in full, provide other necessities for my family, put away money for retirement, put money towards a rainy day fund AND still enjoy leisurely activities. It's not affordable if the resident is still struggling to make ends meet... It also isn't affordable if I am required to work for astronomically low wages just to qualify or if I am incentivized for having a single parent home- perpetuating a cycle of poverty versus making it possible for a two person home to have a chance to get on their feet, invest and thrive. 					Help small businesses out and build incentives for outside ones so invest in Rock Island. We also need to get our crime under control. We're one of the smallest of cities of the Quad Cities, yet it seems we have another shooting every night. Hire more officers, if you have to, loosen some requirements (like where they live) to hire more. Essentially, we're a college town, let's start collaborating with Augustana College and expand their housing and development downtown. A farmers market is another great option to attract people. Our plaza area is not family friendly. In order to attract families and businesses to the area. There's always a stabbing or fist fight down there. A lot of strange people hang out there, making people feel uneasy. We have all these old abandoned buildings sitting around, and the owners are more than ready to rent them out, but we need you the city to make our town attractive and a great place to live.

The failed WalMart on 11th Street needs to be given high priority! Attracting businesses to this spot (RESTAURANTS, shopping) should be looked at..	Property Owner in Rock Island, Live in Rock Island	Ward 3	White	Female	55-64
					This is one of your stated objectives > Investments should be made in economic development that attracts and retains businesses. So, what IS the problem downtown? Well, there's a Catch-22: Businesses that may want to locate there sit on the sidelines, waiting for there to be more foot traffic. But, foot traffic can only be created by having more businesses downtown. So it's an endless cycle of defeat. This is certainly not helped by the fact that building owners continue to prefer spaces sitting empty, rather than to lease them for what they have decided is less than market rate. It is NOT less than market rate if that's what the market will bear, but tax laws favor those who let spaces sit empty, while they artificially pump up the "value" of their buildings to leverage other investments. For some reason, banks go along with this charade, that if spaces are offered at \$12/sq ft, then the building must be worth that, even if true market value is more like \$8 or so. Here is a simple idea to break the cycle: Any business wanting to locate a retail business in one of the empty spaces downtown needs to submit a qualified business plan, and can occupy that space rent free for one year. Let's say, after it is fully ramped up, at a maximum there are 30 storefronts that get filled this way, at an average of \$1,100 per month. That is a MAXIMUM of \$396,000 in a one-year period. Round it out to \$500,000 to promote the program and have one city economic development employee with time set aside to help business owners with their business plans, as needed. This program will self-sunset. That is because, as businesses establish themselves with the help of being rent-free their first year, more will be retained and there will be fewer empty storefronts. In addition, with more businesses, downtown foot traffic will increase, making the District a more attractive investment for business owners who no doubt exist, with the wherewithal to expand their operations to include a downtown location, but who are on standby, waiting for the foot traffic to justify those investments. With the millions and millions of dollars being spent on largely cosmetic projects downtown, this is a modest amount, that directly supports sustained economic growth in The District of Rock Island.

Assistance to small businesses (Attract/Retain)	Greenspace/Recreational Facilities/Neighborhoods	Assistance to nonprofit organizations	Infrastructure (Water & Sewer)	Public Safety / Law Enforcement Technology	Please don't forget long-term care facilities - these facilities are still dealing with COVID regulations (more than 2 years after start of pandemic) and serve our a vulnerable population in our community. I'm not sure how the ARPA funds could be used to help them - potentially with infrastructure projects or job training/recruitment?	Business owner in Rock Island	N/A	White	Female	35-44
Assistance to small businesses (Attract/Retain)	Infrastructure (Water & Sewer)	Assistance to nonprofit organizations	Aid impacted industries (Travel/Tourism/Hospitality)	Greenspace/Recreational Facilities/Neighborhoods	We need to rebuild our downtown, as that is what makes Rock Island great and one of our strengths. This means infrastructure (redoing the plaza, better and brighter security lighting, and a better police/security presence so that restaurants can have outdoor seating without fear of loiterers or vandalism). We won't attract new business or restaurants without more security and reestablishing the feelings of vibrancy and safety for our downtown. There are also major non-profit organizations in our city decimated by Covid. Friendship Manor is a great example. They are a stable presence on the west end, but could really use financial assistance due to their losses for Covid 19. Other non-profits who can help those (rental and housing assistance, for example) should also be included.	Property Owner in Rock Island, Live in Rock Island, Work in Rock Island	Ward 5	White	Male	45-54

Childcare, daycare, and early learning facilities	Assistance to small businesses (Attract/Retain)	Assistance to small businesses (Attract/Retain)	Jobs / Workforce training & development	Affordable Housing	I just want to point out that a lack of day care options, as well as a lack of affordable day care options, has a huge impact on people being able to work. It's taken us a year to find a spot, and it's going to quite a burden to pay for it. We aren't sure yet if a 2nd income will even pay for the necessary day care even with State support, or if we need to survive as a family on one income. This affects people working at day cares, parents looking to earn and income, children's socializing, and businesses in need of employees. I know the State of Illinois has recently made funds available to new/existing day cares, too. And please remember parents who work 2nd and 3rd shifts. Thanks for reading all this! Childcare, daycare, and early learning facilities	Mental Health resources and services	Jobs / Workforce training & development	Assistance to small businesses (Attract/Retain)	Greenspace/Recreational Facilities/Neighborhoods	The areas from which respondents are asked to choose are very broad. I am greatly concerned with the city increasing services to previously underserved neighborhoods and want to see resources deployed to bring the standard of living of Rock Islanders to a higher level. That means that people like myself (see my demographics) don't really need anything, while others need a lot. Unless these responses are considered and funds applied based on equity, I would not find this survey useful. The worst outcome would be for residents to look back at the collection of this information as merely a justification of business as usual. 					<p>Hello, I would like to see about funding for transportation for teens that are enrolled in sports and/or have a job. I'm a single mother and my teen soon to be 16 yrs are having trouble getting her home from school, to and from to the RIFAC, and to work due to my work schedule (9am-5pm). She won't get her license till sometime next year and this past year its been a nightmare. I've had to leave work a couple times a day for 2-3 days a week. I am aware that the metro bus is available but my home is 8 blocks from the nearest bus stop. Also the bus does NOT have a route to the RIFAC. There should be at least one route to the RIFAC especially after school, which is when she likes to go workout/train/practice for sports. I find this very important as its what's keeping her from turning to the streets and/or drugs. We need to see about an employer that will start offering these young teens a job with transportation included after school and hopefully in the long run keep more teens off the streets. I'm not asking for uber transportation but for stops that are closer to our homes. What's the point of offering school age children/teens free metro bus rides if they don't know how to use the bus or the bus stops aren't nearby. Also trying to learn what bus routes to use is so complicated. School children should not have to use the regular metro bus because some cases they have to transfer from one bus to the next, why not have buses only for the schools that use routes that are more direct. But even if we can begin a bus route from Rocky to RIFAC after school on school days would be great. The monthly deduction for my teen is \$16 at the RIFAC I'm willing to pay \$25 or \$30 so that the bus can at least take her from Rocky to RIFAC.</p>

Infrastructure (Water & Sewer)	Greenspace/Recreational Facilities/Neighborhoods	Public Safety / Law Enforcement Technology	Assistance to small businesses (Attract/Retain)	Infrastructure (Water & Sewer)	RI needs to take an honest look in the mirror - we are not thriving economically and our reputation needs improvement. When one's health is failing they must focus on what's needed to survive - not expand services outside a city's core competencies to duplicate efforts of other entities like wealthy/thriving cities can. Right now we must focus on core city functions - streets/sanitation/water & sewer/public safety. We need to attract businesses (tax base) above and beyond hair salons, nail shops, tattoo parlors, specialty clothing, title loan companies etc. Please keep in mind how we spend the money is a signal to future potential investors & residents.	Property Owner in Rock Island, Live in Rock Island, Work in Rock Island	Ward 3	Prefer not to say	Prefer not to say	Prefer not to say

Whether it is a bubble or a turf complex. You see the revenue and the attraction that TBK in Bettendorf has. This would attract a lot of people to the area while building more buildings to house small and medium size businesses. Tourism would go up while jobs would be created. In addition, we would generate a fair amount of tax revenue. The best part is we would create a better environment for today's youth sports! The list goes on and on. Public Safety / Law Enforcement Technology	Mental Health resources and services	Childcare, daycare, and early learning facilities	Assistance to small businesses (Attract/Retain)	Infrastructure (Water & Sewer)	Develop something that makes Rock island a destination location. There is nothing here to draw people and the district is not it, nor is this pipe dream of spending your way out of problems in the west end. The district was an outdated concept 10 years ago with the same lame events. It is an undesirable location surrounded by low income housing, mental health facilities, a bus transfer station that is a destination location for drunks, addicts, the homeless & mentally ill. It is never going to be the district of the 90's and will not draw the crowds you keep wishing for. There is already too much emphasis on affordable housing. There are more than enough shitty derelict market rate housing properties within the city. The ratio of rentals versus home ownership is too high. Outside of paying forward the \$40,000 stolen by Dave Geenan, RI is awash in non-profits & no further investments should be made. Invest in what matters, public safety, public works, and infrastructure, The City looks like absolute shit.	Live in Rock Island	Ward 2	Prefer not to say	Prefer not to say	Prefer not to say

Public Safety / Law Enforcement Technology	Assistance to nonprofit organizations	Mental Health resources and services	Jobs / Workforce training & development	Infrastructure (Water & Sewer)	If you hire more cops, crime goes down. If crime goes down, more people purchase houses, if more people purchase houses, more property taxes are collected and more people spend money at small businesses. That stated, the cops need to be better trained at handling public discourse. None of this is complicated at all. Also, no money from this should get allocated towards the library...The amount of money spent on libraries in the digital age is insane, and it's a waste of funds that does nothing for our community. Potential plot twist: I am a Democrat. Many democrats within our community have these exact same feelings, and that's why so many of them are leaving the area for rural communities where crime is virtually non-existent. Internet Access/Broadband	Market Rate Housing	Greenspace/Recreational Facilities/Neighborhoods	Public Safety / Law Enforcement Technology	Aid impacted industries (Travel/Tourism/Hospitality)	Does a city of the size of Rock Island really need two golf courses? Imagine Saukie golf course being developed with upper and middle income housing. Imagine the revenue that would bring to the city in property taxes. Yes, I can hear the howls now from the duifers among the council, but you were all ready to sell our water. Which is more valuable? Keep the trees and space out the houses, and you will still have plenty of space for wildlife and fresh air. Put walking paths with lots of greenery on the periphery of it so that people like me who were born in Rock Island but have never set foot on that property will get to enjoy it too.	Live in Rock Island	Ward 2	White	Female	55-64

More food trucks	Property Owner in Rock Island	Ward 2	African American	Female	65 and over

					What is the difference between market-rate housing and affordable housing? I thought there was a restriction on spending ARPA funds on infrastructure, yet sewer and water are mentioned here? If one of our challenges is to attract/retain small businesses, investment alone is not enough; there are some significant policy barriers in Rock Island that need to be fixed (for example but not limited to financial/tax incentives for landlords who maintain vacant commercial properties; former El Patron Express property on Blackhawk Road is a perfect example: landlord raised rent, multiple businesses moved out -- better for landlord, apparently, but not good for our community or for small business owners). Please also keep in mind that there are LOTS of small businesses that do not have a storefront! They also need support I would love to see these "once-in-a-lifetime" funds invested in a way that is truly transformational -- ie has a lasting, palpable and/or visible impact on the quality of life for our entire community; that advances equity (racial, economic and otherwise); that creates opportunities to leverage other investments; and that makes Rock Island a more appealing place to live, work, shop and play. Internet/broadband access covers all of these! It's better for businesses, visitors, the economically disadvantaged, education, elderly, and would attract other forms of investment and innovation as well.

Aid impacted industries (Travel/Tourism/Hospitality)	Assistance to small businesses (Attract/Retain)	Infrastructure (Water & Sewer)	Assistance to nonprofit organizations	Greenspace/Recreational Facilities/Neighborhoods	I believe that investing in expansion of the sports complex will draw a population that demands hotels and small businesses. I'm speaking of the Campbell complex and adjacent area that is in dire need of repurposing. This is being seen across the river and we could compete for those tournaments and tax revenue by investing in the facility. The domino effect will cause other "needs" to fulfill themselves. It is too close to the interstate to not take advantage of the area.	Property Owner in Rock Island, Live in Rock Island	Ward 5	White	Male	35-44

Greenspace/Recreational Facilities/Neighborhoods	Affordable Housing	Infrastructure (Water & Sewer)	Mental Health resources and services	Childcare, daycare, and early learning facilities	Yes. I would love to see improvements to pedestrian infrastructure in Rock Island, particularly in the areas around Augustana College. From my own experience as an Augustana student and the experience of many other people I go to school with, it is very difficult to get anywhere off campus without a car. Specifically, it is really difficult and dangerous to get to the Hyvee on 18th ave. There are crossing lights at the intersection, but they rarely work. Many people have to resort to jaywalking in order to cross 18th ave to get to Hyvee. It's super dangerous since cars generally drive very fast on that road. Every time I try to walk to Hyvee, I feel like I am risking getting run over. I have even seen people in motorized wheelchairs attempt the crossing and get stuck in the middle of the road while cars whiz by. It would be nice to see improvements in that area, with more distinctive crosswalks and crossing signals that work properly. Or, even better, some sort of dedicated pedestrian crossing near checkers with lights that stop traffic for pedestrians. I am no infrastructure planner, but I do know that it should not be so dangerous to simply go get groceries. Also, this is an issue that disproportionately affects lower income/ underprivileged students at Augie. Not everyone can afford access to cars, and many international students on campus can't legally drive in the U.S. Augie kicks students off of on campus housing for their senior year, meaning that most seniors don't get meal plans, meaning they have to cook for themselves. For the groups I mentioned above, this is especially challenging because not having access to a car makes getting groceries extremely difficult. It would be a great investment to make the area around Augustana College more walkable, especially when it comes to going to Hyvee. Please spend a part of this money on this project before someone get seriously injured simply trying to buy groceries.	Student at Augustana College	Ward 5	White	Male	18-24

Affordable Housing	Market Rate Housing	Assistance to small businesses (Attract/Retain)	Greenspace/Recreational Facilities/Neighborhoods	Public Safety / Law Enforcement Technology	I think we need to build the tax base and not watch as people leave our city. We need to attract home buyers to our city. If we can assist people in owning homes in the city we will build a good tax base and get our pride back in living in this great city.	Property Owner in Rock Island	Ward 4	White	Male	55-64
Assistance to small businesses (Attract/Retain)	Infrastructure (Water & Sewer)	Affordable Housing	Mental Health resources and services	Public Safety / Law Enforcement Technology	Given current issues perhaps we should make sure we can provide voting rights, equality, and access for everyone. We need to work on attracting some labor businesses. Large savings already in place for infrastructure; can some funds be moved to other areas of need? We need manufacturing and tech businesses as we have a huge partial of land going to waste. We need reputable landlords and oversight to maintain neighborhoods and protect our most vulnerable population. We need to help curb violence and the onset of continued homelessness.	Property Owner in Rock Island, Live in Rock Island	Ward 7	White	Female	65 and over
Childcare, daycare, and early learning facilities	Assistance to small businesses (Attract/Retain)	Infrastructure (Water & Sewer)	Assistance to nonprofit organizations	Internet Access/Broadband	So none of this COVID relief money would go to public health? That doesn't make sense. I will say that several times a year (and this has nothing to do with the pandemic), we are under a boil order because of sink holes, water, and sewer issues in our back alley. It feels like the city is merely putting temporary patches on a larger problem - that is a waste of tax payer dollars. Spend the money to actually FIX the problem. These boil orders are a huge inconvenience. I'm not from the QC, and I have NEVER lived in a place where these problems repeatedly happen.	Live in Rock Island	Ward 1	White	Female	45-54
Mental Health resources and services	Greenspace/Recreational Facilities/Neighborhoods	Childcare, daycare, and early learning facilities	Assistance to nonprofit organizations	Public Safety / Law Enforcement Technology	I would like to see the city, county, region come together as "one" working together for the benefit of all. Stop the division. Working together we can achieve all our goals.	Worker, frequent visitor and supporter.	N/A	White	Male	65 and over

Greenspace/Recreational Facilities/Neighborhoods	Infrastructure (Water & Sewer)	Assistance to small businesses (Attract/Retain)	Affordable Housing	Public Safety / Law Enforcement Technology	There's too many vacant homes, properties, and land throughout the City of Rock Island. We need to put more emphasis on the face value of Rock Island. We need to literally clean up the community. Way too many property nuisances that aren't enforced by city officials. Way too many people breaking codes that could be fined to help generate money. I could go on all day about the City of RI. I've lived here for 25 years and it's the only place I've lived. It has so much potential but there's simply areas of RI that need tree work, houses torn down, and people to clean up their yards. Rock Island need to invest in public works and parks and rec. We need to keep rock island beautiful.	Property Owner in Rock Island, Live in Rock Island	Ward 3	White	Male	25-34
Greenspace/Recreational Facilities/Neighborhoods	Assistance to nonprofit organizations	Internet Access/Broadband	Infrastructure (Water & Sewer)	Assistance to small businesses (Attract/Retain)	Funding for improvements to the joint project between the Rock Island Public Library and the Two Rivers YMCA to purchase and repurpose the former Tri City Jewish Center. Public Safety / Law Enforcement Technology	Infrastructure (Water & Sewer)	Mental Health resources and services	Childcare, daycare, and early learning facilities	Assistance to nonprofit organizations	Issue all new recycling & trash cans (at no fee to the homeowners). Ours are old & broken. The garbage trucks just throw the cans down so of course the cans are broken. Or update the trucks so they can set the cans down better. Reduce the fees for recycling, or make everyone pay for recycling. More people would recycle if they had to pay for it which in the long run the city would save/make more money. Also, better snow removal!! The side streets are not very good. And, use some salt on the side streets. Why can't the snowplows (or smaller snowplow trucks) drive though our alley? They plow the alley across from us. Why not plow all alleys? It's awesome when the main roads are taken care of but it's hard to get out of our alley and side streets to get there! It's really too bad this money can't be used for street repairs. Our street desperately needs to be resurfaced!! Affordable Housing	Infrastructure (Water & Sewer)	Assistance to nonprofit organizations	Mental Health resources and services	Internet Access/Broadband	Use of 11th Street vacant property for small houses for homeless and different capacity i.e. since or family. Add a park and play area with small water feature. This is disgrace from past Council decisions so clean it up. Also fund the Projevt Now Honor Homes to add five more. Just need a bit to complete them. Road improvement as infrastructure. Also non profits instead of duplicating services. Every non profit would thrive even if it were \$ 50-100,000 to some of them. Choose a million of the amt and distribute to struggling non profits. Spend 10 mil on developing 11th St plus renovate some of our abandoned homes or tear them down. These projects would aid local businesses by providing projects and work. Spend 8 mil on infrastructure including broadband. Spend the rest, about 5-6 million on raising teacher salaries , school programs to help those students unable to keep up and needed facility upgrades.	Business owner in Rock Island, Property Owner in Rock Island, Live in Rock Island, Work in Rock Island	Ward 2	White	Female	65 and over
Mental Health resources and services	Assistance to small businesses (Attract/Retain)	Public Safety / Law Enforcement Technology	Childcare, daycare, and early learning facilities	Affordable Housing	Ha! Send help for the roads from the County! It's like driving on the lunar surface! :) Idea: Expand cradle to grave mental health resources starting with early childhood learning programs. Mental wellness affects societies from within and improves all aspects of that society, from safety to business growth. Look out west into CA for program ideas. Thanks for all you do!	Property Owner in Rock Island, Live in Rock Island, Child attends school in RI	Ward 5	Prefer not to say	Female	45-54
Public Safety / Law Enforcement Technology	Market Rate Housing	Infrastructure (Water & Sewer)	Assistance to small businesses (Attract/Retain)	Aid impacted industries (Travel/Tourism/Hospitality)	Take care of the city employees. They've suffered through this entire mess by working everyday. And then you canceled our performance merit raises. We kind of need those to survive. While others were at home working in their homes we were in the homes face to face with sick people everyday. Having to cover for sick people who can't come to work. Taking it home with us. And you cancel our merit raises. Just awful!!	City employee (fire department)	Ward 4	White	Male	55-64

Affordable Housing	Assistance to small businesses (Attract/Retain)	Jobs / Workforce training & development	Greenspace/Recreational Facilities/Neighborhoods	Infrastructure (Water & Sewer)	I see weeds at the Fitness Center, schools, and several other areas in RI that obviously the parks or whoever are not able to keep up with. Years ago we had a project that was like "Adopt a Highway" but it was adopt an area that needs attention, say cleaning 31st avenue (the boulevard city owned area) between the Eugene Field and St. Pius (not home owner's yards). Our Junior Women's Club at that time cleaned it once or twice a month I believe it was and another area also on 20th avenue between 36th street and 37th street. This could be done by organizations, churches (around their area), boy scouts, girl scouts, or anyone wanting to put a group together. Also, a nice way to bring people together and encourage some pride in our city. Just an idea.	Property Owner in Rock Island, Live in Rock Island	Ward 6	White	Female	65 and over

					I would like to see the City allocate a proportionate number of ARPA Dollars / Funding to the following projects as is planned / allocated for the Downtown revitalization: 1. Douglas Park Rehabilitation; 2. The Hauberg Center & Carriage House; 3. The YMCA / Library Project; 4. The First Tee Program / New Clubhouse at Highland Springs. I would like the City to consider developing a 55+ Community (Villas/ Townhomes) at the former Watchtower Plaza Location in Rock Island featuring Zero Entry Floorplans, \$175k-\$250k Price Points; etc., similar to The Friendship Manor Villas and Moline Place. The long-term reality of retail development at this site is likely null and void. Why not add significant rooftops and fill an IL QCA Market Housing Need / Void? Rock Island, Milan, Andalusia, Reynolds, Edgington, etc., have ZERO empty nest housing stock, but there is DEMAND. You should be able to place 100 units at Watchtower Plaza. With an Average Assessed Value of \$200k, that's \$20 Million in new housing starts and EAV, something Rock Island hasn't seen for decades. Add Rooftops and Retail will follow...that's how the game works. Or, make the Watchtower Plaza Site available to either a Heavy Equipment or Implement Dealer, a Semi-Truck / Trailer Dealer, or to a regional ATV, UTV, Boat, Snowmobile, RV Dealer with an onsite proving / testing grounds. These types of items are growing in ticket price and popularity since COVID, and why not make Rock Island a "Destination Location" for purchasing? Clients will travel 6-8 hours by car and truck to take delivery on these items. The average sales ticket is \$20k+. We have lost all of our New Car Franchises over time (Zimmerman Pontiac/Cadillac/Honda, Neu/Campbell Olds, McLaughlin Volvo, Austin Buick, Johnston Dodge, Bob Neal Ford, Learner's Chrysler Plymouth) and we need to "recapture" this opportunity and velocity. The Sales Tax income potential is enormous. Time to be creative and think outside of the box and our comfort area...beyond "Walmart". 					1)The 'Guiding Principles' read like something from a capitalist business management handbook 2)Make projects 'base cost', i.e. no addon fees on materials, labor, management fees, or new equipment unless remain at project. Establishes an independent committee to audit all expenses paid from the project accounts. Include significant 'fines' for 'profiting on community projects. Any amounts allocate but not expended are returned to city. 3)Projects which do not have future costs should have higher priority. Avoid projects which have significant staff and/or maintenance costs. 4)If a business desired project then business must be within Rock Island or have significant presence 5)Establish an 'endowments' for each projects with future expense (staffing, maintenance). Endowment initially funded at expected 10 year expenses. Use one of local banks or credit unions to handle the endowments at no cost, i.e., provide a public service. 6)Use the 11th street 'Walmart' for projects. Value of a area allocated to a project is included in project cost and used to pay down the debt. 7)Reserve funds for creating parking at 11th 'street Walmart' as projects are added. 8)Build additional bus stop shelters. Bus drivers could identify locations with frequent riders. 9)Pay down debt on land purchases (11th Street, quarry). 10)Add playground equipment to existing parks with areas of children, teens, seniors. 11)Build new parks in areas with high density and/or low income using tax delinquent or uninhabitable. 12)Build gated area of 'tiny houses' for homeless. 13)Build an enclosed 'games arena' at 11th street 'Walmart. Enclosed are non-winter games like mini-golf, frisbee, rolle bolle. Access free for non-RI residents.

Work in Rock Island	Ward 1	White	Female	25-34
Greenspace/Recreational Facilities/Neighborhoods	Internet Access/Broadband	Childcare, daycare, and early learning facilities	Public Safety / Law Enforcement Technology	Assistance to nonprofit organizations	Specifically Placemaking: our city parks need more attention and grooming. I understand the natural prairie approach, however those areas need more signage as to the intent of the growth. Longview park has nice playground areas however the old greenhouse needs (it was nicely taken care of for MANY years... but the last 10 years has seen a sharp decline and now it looks decrepit. I would like to see the lagoon area, Helen Horst area and the garage (open up the top part again) return to its former glory. The tennis courts and the volleyball area need some love as well. What we can't make up in retail can be made up by having nice park areas for residents and a good reason for people to live in Rock Island. Also finding a way to provide better Internet Access at the parks (and perhaps creating some "power stations") could go a long way for visitors and residents.	Live in Rock Island	Ward 3	White	Female	45-54

Assistance to small businesses (Attract/Retain)	Assistance to nonprofit organizations	Mental Health resources and services	Childcare, daycare, and early learning facilities	Internet Access/Broadband	A majority of the small businesses in Rock Island have been hit severely by the Pandemic. Over the last few years all companies have been forced to double their wages, have lost customers and lost revenue because of closures during the pandemic, have experienced rising prices in pretty much every part of their business. This has been a steep slope and a number of businesses have already gone under in Rock Island as a result. While there has been some help, it hasn't been enough to overcome this new normal. If we want more people living here, then we need to support the businesses in this area who are here now.	Business owner in Rock Island, Live in Rock Island, Work in Rock Island	Ward 3	White	Female	45-54

Assistance to small businesses (Attract/Retain)	Greenspace/Recreational Facilities/Neighborhoods	Jobs / Workforce training & development	Infrastructure (Water & Sewer)	Aid impacted industries (Travel/Tourism/Hospitality)	The following project in need of financial spending is to revamp the Watch Tower plaza (Zarye shopping center) and what was once the bowling alley Town and Country.. This real estate as far as I am aware was once to be turned into a Walmart. Yet due to the corporate decisions was cancelled leaving a debt in the city till. Water under the bridge, yet the land can still be developed as if state of the art solar panel roof and electric power walls charging stations for the future of electric automobiles. A whole new incentive to stop and shop and free charging to customers using it as of a truck stop. If those ARPA funds and HUD re-development funding of solar panel technology along with IBEW safety circuit standards that into the future Rock Island can caught the wave of future brick and mortar businesses. Now I realize there are those ideas to fund the Denkman center as slush funds for future politicians and re-modeling the county building for those already in office, yet think into the tax revenue of funding further city development. Bring back the shopping center and grocery stores with choice restaurants and continue to invite business input to locate at the 11th street revival...thank you. Greenspace/Recreational Facilities/Neighborhoods	Aid impacted industries (Travel/Tourism/Hospitality)	Infrastructure (Water & Sewer)	Assistance to small businesses (Attract/Retain)	Childcare, daycare, and early learning facilities	Provide the funds to maintain the parks and public spaces. The parks and public's spaces have always been an asset to how people view our city. There has not been the funds to maintain these, and the parks and park spaces look worse every year. This was the first job for many of our youth, but fewer and fewer are employed and the result is that they have less appreciation for how the town looks, and from an outsiders view, the city looks unkept. These jobs taught responsibility, and community pride. We need to take care of what we have instead of letting these facilities fall apart.	Live in Rock Island	Ward 7	White	Male	65 and over

Assistance to small businesses (Attract/Retain)	Childcare, daycare, and early learning facilities	Affordable Housing	Greenspace/Recreational Facilities/Neighborhoods	Public Safety / Law Enforcement Technology	I'm glad to have a chance to voice my opinion and suggestions in regards to the money so these businesses can use it to stay in business. Our uptown businesses need all the help they can get and we need small businesses to keep their workers and property up. This money should not be given to any of the businesses in Downtown or anything in the Walmart space on 11th street, there's already been too much money spent on those areas and they are dead. I've lived in this area for 26 years and I have no idea who our Alderman is at this time. No one has ever been around this neighborhood asking any questions how they could better serve the citizens of Rock Island. None of the Alderman seem to be able to make any decisions as to the welfare and benefits for the citizens. I hope good decisions are made regarding this great deal of money for everyone in the city. Infrastructure (Water & Sewer)	Jobs / Workforce training & development	Greenspace/Recreational Facilities/Neighborhoods	Public Safety / Law Enforcement Technology	Aid impacted industries (Travel/Tourism/Hospitality)	11th Street deterioration - recover 11th St. from downtown to around 31st Ave. This is a main thoroughfare through town for many but is in very poor condition in many areas. Every year there are numerous water main failures throughout the City which indicate an old system that should be updated. For example, last winter there were 2 or 3 water main breaks around 11th Street around 37th Ave. Besides the inconvenience of having the water shutoff for home owners, the repairs made results in another rough driving surface on the streets. Vacant power generating plant on 11th St. and Rock River - this could be a revenue generator if the property was leased/sold/or City developed. It is a historic area and is scenic by the dam falls, Van Driff's Island, old railroad trestle bridge, etc. Plans should be made to develop this site. Infrastructure (Water & Sewer)	Greenspace/Recreational Facilities/Neighborhoods	Affordable Housing	Assistance to small businesses (Attract/Retain)	Aid impacted industries (Travel/Tourism/Hospitality)	Repair of the Rock Island portion of the levee bike path. The path runs from Sunset Park to Savannah on the Illinois side and connects to an extensive trail network on the Iowa side via multiple bridges. Few communities in the USA have a trail network this size. On the many miles that make up this network the worst sections are in Rock Island, specifically near the raw water pumping station, the section west of the Centennial Bridge, and the wooden bridges. COVID taught us the importance of having outdoor recreational facilities available to our citizens. I know there are many needs and I'm hopeful some could be allocated towards the bile path. Thanks for listening.	Property Owner in Rock Island, Live in Rock Island	Ward 3	White	Male	55-64

Assistance to small businesses (Attract/Retain)	Greenspace/Recreational Facilities/Neighborhoods	Assistance to small businesses (Attract/Retain)	Assistance to small businesses (Attract/Retain)	Assistance to small businesses (Attract/Retain)	We have to do something to attract new people to our city. The down town is a great place to start. I would love to see our architecture, community support and so many available spaces truly promoted to launch new businesses and ideas there. It has to start somewhere and maybe we could allocate some of this funding to really, REALLY attract businesses..not more sketch bars but actual destination spots. Also hopeful that the downtown tear down of the stage area and plaza gets completed to make way for a more family friendly environment that attracts visitors and businesses to this beautiful area.	Property Owner in Rock Island, Live in Rock Island	Ward 3	White	Female	55-64

Infrastructure (Water & Sewer)	Greenspace/Recreational Facilities/Neighborhoods	Mental Health resources and services	Public Safety / Law Enforcement Technology	Affordable Housing	Try and promote retail sales from major companies and including grocery chains. Currently there is very little competition in the grocery store market in Rock Island and literally no major retail outlets in our community. Many people in our city do not have access to a food store within their neighborhood. One other matter to retain history in our city would be to work out some way of preserving the Rock Island County Court House. The building is a landmark and could be renovated.	Property Owner in Rock Island	Ward 7	White	Male	65 and over

					Support library development, get this project finished and sustained, PLEASE. When I mention internet access we have internet- it is terrible and goes out several times a week. This is unacceptable in todays world. The question was worded in a way that doesn't clarify if it is expansion to unserved areas or if it is updating and providing the level of service other quad citizens have enjoyed for decades! We deserve up to date reliable internet- please!!! We need a community center that serves all youth- not just a specific demographic or locale. The library/ Y is a start but there needs to be so much more in community offering as to a place for our youth and adults to meet, learn, recreate, compete.

Infrastructure (Water & Sewer)	Greenspace/Recreational Facilities/Neighborhoods	Mental Health resources and services	Childcare, daycare, and early learning facilities	Public Safety / Law Enforcement Technology	While I don't know if this would be an ARPA-eligible project, I'd be very supportive of enhancing the Rock Island Public Library's outreach programs, collaborating supportively with existing community agencies, connecting young readers with, well, reading, and books, and with their neighbors as a means of strengthening real, in-person community, and offering an alternative to the mass power of little screens that I see everywhere, leading tender minds into a world that is, well, no thicker than a screen. I appreciate the work the Library here does within its (typically) limited budget, and I think the addition of some college-aged summer interns (and older, retired "interns") with a summer wage under guided, experienced supervision is worth a try. Or, we can just continue to watch young people's interests stifled into commoditizable quantities for sale in the "market". Thanks, Tim Long, 2535 22nd Ave.	Property Owner in Rock Island, Live in Rock Island	Ward 4	White	Male	65 and over
