

**MEMORANDUM  
FINANCE DEPARTMENT**

**TO:** Mr. Thomas E. Thomas, City Manager  
**SUBJECT:** December 2012 Management Report

**Number: 052-13**  
**Date: 1/28/13**

The management report for December 2012 is attached. The benchmark percentage for December is 75%.

**General Fund**

Revenue and expenditures are reported at 80% and 67% of budget, respectively. The following table shows projections for general fund tax revenues. The overall general fund tax revenue has a projected surplus of \$1,336,208.

Tax	2012 Actual	2013 Budget	2013 Projection	2013 Surplus/ (Shortfall)
Income	3,423,316	3,090,000	3,906,397	816,397
Replacement	2,466,745	2,400,000	2,313,928	(86,072)
Sales	2,656,468	2,660,000	2,716,349	56,349
Local Option Sales	2,314,109	2,146,000	2,395,291	249,291
Use	569,066	593,000	602,757	9,757
Utility	1,957,597	2,058,000	1,960,757	(97,243)
Telecommunication	1,256,882	1,240,000	1,333,715	93,715
Food & beverage	865,545	830,000	1,124,014	294,014
Total	15,509,728	15,017,000	16,353,208	1,336,208

According to the *September 2012 Revised State Shared Municipal Revenue Estimates* provided by the Illinois Municipal League, Replacement Tax revenue (CPPRT) is estimated to decline 12.9% from the prior year rather than increase by 2.9% as originally projected in May 2012. The state hadn't accounted for the \$91 million in unpaid refunds that are required to be accounted for in the CPPRT fund at the end of their fiscal year. This resulted in their CPPRT revenues being inflated. Once the adjustment was accounted for the estimated revenue decreased significantly. Based upon this estimated decrease, our budget shortfall at the end of FY13 is projected to be about \$309,600.

**City-Wide**

The funds designated as "city-wide" include the gaming fund and the city's internal service funds.

The revenues for gaming, self insurance, and employee health plan funds are consistent with the benchmark for December.

The Hydroelectric Plant's revenue usually comes in two months behind as it is a reimbursement from MidAmerica for services provided. The benchmark two months ago was 58% and the amount of revenue received is actually a bit over that benchmark.

### **Debt**

The debt service fund accounts for general obligation debt service for non-enterprise funds. Interest is due in June, and interest and principal are due in December. The revenue is transferred in the month prior to the date payment is due. At December, most of the revenue budgeted should have been transferred as there are no more payments due this fiscal year and the revenue to date reflects that.

### **Community & Economic Development**

The revenue for these funds are mostly grants paid on a reimbursable basis along with contributions for project expenditures. As expenses are incurred, paperwork is submitted for reimbursement. The revenue for the Community/Economic Development Block Grant funds are consistent with the expenditures.

Housing and community development loans include residential, state affordable housing and CIRLF loans. The revenue recorded for these funds are actually payments received for the loans issued and have been reclassified to reflect the decrease in Loans Receivable as a part of the monthly closing process which has begun to be implemented. This is the reason for the revenue appearing so low.

The revenue received for TIF funds and Community and Economic Development are a bit above the projected benchmark.

### **Appointed Boards**

The Martin Luther King Center is shown as a combination of five funds (211-MLK Center, 212-MLK Facility Improvement, 901-Activity, 906-Department of Human Services, and 907-MLK Capital Contributions). These funds are primarily funded by grants paid on a reimbursement basis, contributions and rental of the facility. Few donations have been made and because the grant manager position has been vacant grant reimbursements just beginning to catch up. We expect grant income to rise so that it is consistent with expenditures in the coming months.

The Library is above the targeted revenue while its expenditures are a bit below the current benchmark.

Parks and Recreation's revenue is consistent with the current benchmark while its expenditures are also a bit below.

Neither Library's nor Parks and Recreation's figures are materially different from the benchmark.

### **Public Works**

This category reports the results of operations for all city enterprise operations except Parks and CED loans.

All Public Works funds' revenue are consistent with or above December's benchmark. Expenditures are a bit below for the funds except for Sunset Marina's who's consistent with the benchmark. The funds below are not materially off target.

**Street and Miscellaneous Capital Improvements**

Revenue for these funds comes from the state motor fuel tax, gaming and charges for services. Expenditures for motor fuel tax and capital improvements fluctuate based on the status of construction projects.

Motor fuel tax's revenue and expenditures are both consistent with the current benchmark.

The Capital Improvement revenue is under target at 55%. This fund is funded largely by grants, bond proceeds and a transfer from the Riverboat gaming fund. Revenue is higher than the expenditures incurred so although its under target, the activity is consistent with the operation of this fund.
