

**Memorandum
Fire Department**

To: Thomas Thomas
Subject: Bid Submissions for Fire Department Generators
Date: November 19th, 2013

The Rock Island Fire Department published a Request for Proposals on October 4th, 2013 for the installation of diesel generators at Fire Stations 2, 3, and 4. The RFP with specification packet was also listed on the City web site, and, in addition, vendors were contacted directly by email.

Sealed proposals were to be received at the office of the Fire Chief by 10:00 am on November 8th, 2013. Sealed proposals were received by five (5) vendors.

Bids were opened publicly and read aloud at 10:00 am on November 8th, 2013 at Central Fire Station, with representatives from each vendor in attendance. The bids submitted were as follows:

GPX Electric	\$90,500.00
Davenport Electric Contracting Company	\$88,227.00
Tri-City Electric	\$76,948.00
Rock River Electric	\$75,994.00
Lakewood Electric	\$73,464.00

Upon further review of the bids submitted, two (2) of the three (3) lowest bidders, Rock River and Tri-City, met all the requirements of the RFP and specifications. Lakewood Electric was disqualified due to improper submission of references for similar services at other facilities.

Recommendation: Fire Department staff recommends that City Council approve the bid of \$75,994.00 submitted by Rock River Electric for the installation of diesel generators at Fire Stations 2, 3, and 4, and authorize the City Manager to execute the contract documents.

Submitted by: Jeffrey C. Yerkey, Assistant Fire Chief *JCH*

Approved by: James J. Fobert, Fire Chief *JJF*

Generator Installation Proposal
Bid Opening 11/08/13
Attention: James J. Fobert

RE: Electrical Quote Station #2, #3, and #4 Generator Installation

Dear Chief Fobert:

Rock River Electric, Inc. is pleased to present to you a quote for the following scope of electrical work to be performed at the above listed locations:

- Provide and install all diesel generators per specifications and approved suppliers
- Provide and install required concrete pads with footings
- Provide and install concrete bollards as needed per site
- Provide and install all required coordination with Mid American Energy and City of RI
- Provide and install all outdoor rated, service entrance transfer switches per specifications
- Provide and install all required conduit and wire for generators and transfer switches
- Provide and install all required 120 volt power for block heaters and battery chargers
- Provide and install a complete turn-key installation per specifications at all 3 locations
- Provide necessary generator start-up and testing per specifications
- Provide necessary warranty per specifications
- Provide necessary crane to set units on concrete pads

Our total lump sum quote for the above listed scope of work comes to **\$75,994.00.**

1. Price excludes tax
2. Price based on the work being performed during regular business hours
3. Price includes required performance, labor, material, and maintenance bond —
4. Price assumes all work to be started ASAP weather permitting and generator availability
5. Price assumes all work to be completed 100% by June 2014
6. Price excludes any MidAmerican expenses/fees
7. Price includes bond and all insurance requirements

Please contact me at (309) 949-3000 with any questions regarding the above listed scope of work.

Thank you,

T.J. Thompson
President
Rock River Electric, Inc.
