

**Memorandum
Public Works Department**

To: City Manager
Subject: 2014 Stormwater Outfall Program, Project 2650
Date: July 15, 2014
Number: 2014-151

We have held discussions with Legacy Corporation about the 2014 program. This contractor completed the City's 2013 Stormwater Outfall Program. The 2013 Stormwater Outfall Program was bid on July 16, 2013. Legacy is willing to complete the 2014 program at last year's unit prices.

Engineering typically sees a yearly increase in labor and material costs of at least 3.25% for programs such as this one. However, with the continued rise in construction material prices, we would expect to see unit prices increase again over last year. The potential savings to the City is well over \$8000.

RECOMMENDATION:

It is recommended that the City Council extend the 2013 Stormwater Outfall Program through 2014.
