

**MEMORANDUM**  
**POLICE DEPARTMENT**

**TO: Thomas Thomas, City Manager**

**SUBJECT: Evans Dispatch Consoles**

**NUMBER: 15-05**

**RE: Recommendation for Purchase**

**Date: 03/26/15**

---

As part of the new Police Facility construction, the Police Department will be required to purchase new dispatch consoles. It was estimated during the planning phase that the purchase of this equipment would be approximately \$100,000.00, which was included in the overall project budget.

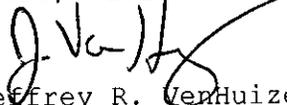

Department staff have had the opportunity to examine various consoles utilized by other Public Safety Answering Points (PSAP's), as well as examine various manufacturers models at tradeshow and conferences. It has been agreed upon by executive staff that the desired consoles to be installed in the new 911 Dispatch Center would be those manufactured by Evans.

Staff have agreed that the Evans Consoles surpass other manufactured consoles in quality and durability, while other factors have been considered as well in recommending their purchase to include the use of Evans Consoles by other local PSAP's and feedback from other PSAP coordinators.

**Attachment (1)**

**RECOMMENDATION:**

The Police Department recommends that the City Council authorize the purchase of five (5) Evans Consoles, along with the included upgrades, in the amount of \$121,971.14. This quote is based upon GSA pricing.

  
**SUBMITTED BY:** Jeffrey R. VanHuizen  
Chief of Police
