To the Mayor/ Liquor Commissioners Office:

We had found that customers would want more space and would push the fence out, and it was encroaching on walkable right-of-way near the bike rack. We are resolving this issue by adjusting the fence to be farther from the bike rack, with more new large weighted planters that take more effort to move, as well as purchasing smaller bistro style tables to take up less space in our designated seating area. Our April staff meeting will include information to remind staff to maintain the outdoor seating area, not to serve glass outside, as well as we will post our "No Glass Outside" sign on the front door.

Additionally, we would like to request the use of small outdoor speakers to play music during business hours in our café area. The music will reflect what is playing in the coffeehouse. These speakers will be installed near the inside of the awning facing down at our café area, and the volume will be maintained at a level appropriate for our café area to hear. The music will be turned off at 10pm every evening.

Thank you.
