

**Memorandum  
Public Works Department**

**To:** City Manager  
**Subject:** GSA Contract Godwin Pump Purchase  
**Date:** October 19, 2011  
**Number:** 2011- 300

---

The Public Works Department/Fleet Services Division obtained quotations on the purchase of one eight (8) inch trailer mounted, diesel powered water pump, a three (3) inch electric submersible pump and accessories for the Waste Water Treatment Plant Expansion project.

Staff contacted Godwin Pumps requesting a quote through the General Services Administration (GSA) purchasing contract with Godwin Pumps of America Inc. The quote we received was almost fourteen thousand dollars less than the contractor. The City can purchase vehicles and equipment through GSA contracts along with the State contract. All of the equipment and accessories will be retained by the City at the end of the project for flood protection.

**Recommendation**

The Public Works Department recommends that City Council approve the GSA Contract purchase from Godwin Pumps of America Inc. for a 2012 Godwin CD200M eight (8) inch pump, and one Flygt NS3085 three (3) inch electric submersible pump along with the control panels and floats in the amount of \$36,528.80.
